Do NOT Call List!!

I sincerely feel that if I quit doing business with a company that the company should not be allowed to call and harass me for whatever reason they wish to. I feel the FTC should for the public stand by the Do NOT call list regardless of the companies excuses why it is unfair to them.

It is in my opinion harassing past customers and we the public DO NOT want to be contacted by telemarketers, companies we did business with in the past and for whatever reason we had quit doing business with that company.

Harassment is harassment no matter how a company wants to define their excuses.

Thank you and please support the DO NOT Call list for us.
